CONNECTING & MOBILIZING THE ENTIRE MANUFACTURING ECOSYSTEM

Sustainment's vision is to reimagine the American manufacturing base as a hyperconnected, secure, and resilient ecosystem of local and regional suppliers who can more easily connect and interact with the government and industry organizations that support or rely on them.

The screenshot displays the Sustainment platform interface. On the left is a dark sidebar with navigation icons: a home icon, a document icon, a list icon, a search icon, a user icon, and an 'Invite' button. The main content area has a top navigation bar with tabs: DASHBOARD, PROJECTS, MY COMPANY, OPPORTUNITIES, and DISCOVER (which is active). Below the navigation bar is a search bar labeled 'Company Name' and a filter bar with dropdowns for 'Location', 'Supplier Processes', 'Industries', and 'Business Classification'. The main content area features three company profiles:
